This five story brownstone on Manhattan's west side features a kitchen that is comfortable and spacious for a family of five as well as headquarters for caterers when serving formal affairs. White painted cabinets and a thick Carrera marble countertop evoke city sophistication. The custom stained walnut island comfortably seats four providing plenty of functional surface, allowing Mom her own work space. State-of-the-art appliances and technology, including a built-in espresso maker, warming drawers, under counter refrigeration, freezer drawers, and a built-in wine cooler, create an understated yet refined appearance.
